Prime Time sessions (17:00–22:00)

1.75x

Friday vs Monday session swing

40%+

Watch hours from live sport

18.4%

Dormant profiles (mostly incomplete)

Prime Time (17:00–22:00 SAST) is the single biggest viewing window, accounting for 3,628 of the 10,000 sessions — confirming it as the anchor slot for any promotional push.

Monday is the lowest-consumption day with only 957 sessions, versus 1,675 on Friday, the highest — a near-1.75x swing driven by the shift from weekday routine into weekend/leisure viewing.

Gauteng is the largest region by far; Western Cape and Kwazulu Natal are secondary priorities.

Young Adult and Middle Aged Adult segments drive the majority of sessions — target CVM offers here.
